Introduction

The Citizen Panel

The Citizen Panel (Sw: Medborgarpanelen – MP) is an online panel survey run by the Laboratory of Opinion Research (LORE), which was established in 2010 by the Multidisciplinary Opinion and Democracy (MOD) research group at faculty of social science, University of Gothenburg. The purpose of LORE is to provide a platform and an infrastructure for multidisciplinary research on democracy and opinion issues, as well as a to provide an efficient facility for collecting data from online questionnaires mainly for survey experiments and panel studies, and to contribute to methodological development and testing in the area of web surveys. LORE and the Citizen Panel are funded by the University of Gothenburg. Each survey consists of a number of core questions that are asked repeatedly, and a number of specific studies. The design and content of these specific studies vary, but are mostly either survey experiments using random assignment or panel studies that span over several waves of the Citizen Panel.

Citizen Panel 10 (MP10)

- The tenth Citizen Panel was carried out between the 5th of June 2014 and 17th of July 2014.
- Questionnaires were sent to 24,195 respondents, of which 15,130 answered the survey (Gross Participation Rate: 63%, Net Participation Rate: 65%).
- All in all, there were 11 studies included in Citizen Panel 10. In addition, 113 core questions were asked.
- The Citizen Panel 10 sample is mixed, but consists mainly of opt-in respondents. 74 percent of the gross sample is opt-in, while 26 percent is probability based recruitment from population samples.

Summary

Table 1: General Information¹

| | |
|---|---|
| Name: | Citizen Panel 10 (Sw: Medborgarpanelen 10 / MP10) |
| Field period: | 2014-06-05 – 2014-07-17 |
| No. of field days: | 42 |
| Date of reminders: | 2014-06-11; 2014-06-23 |
| Gross sample size (GSS): | 24,195 |
| Net sample size (NSS): | 23,406 |
| E-mail bounce backs: | 789 |
| Coverage rate/Absorption rate: | 97% |
| Responses: | 15,130 |
| Partial responses: | 267 |
| Breakoffs: | 116 |
| AAPOR participation rate (RR5): | 61% |
| Gross participation rate (GPR): | 63% |
| Net participation rate (NPR): | 65% |
| Mean response time, excl. outliers ² : | 15 min |
| Median response time, excl. outliers: | 12 min |
| Standard deviation, response time: | 11 min |

Table 2: Dataset Information

| | MP10 |
|--|------|
| No. of variables in full dataset: | 992 |
| No. of variables in full dataset, excluding paradata: | 555 |
| No. of studies: | 11 |
| No. of study variables: | 357 |
| No. of core variables: | 198 |

¹ See Glossary on p. 11 for further information regarding the different categories and how the numbers are computed.

² Outliers are those who spend more than 90 minutes completing the questionnaire. In MP10, 1,350 participants (8.9 percent) used more than 90 minutes.

Featured Studies

Table 3: Featured Studies in Citizen Panel 10

| <i>Study:</i> | <i>Title:</i> | <i>Researchers:</i> | <i>No. of variables</i> |
|---------------|--|--|-------------------------|
| Study 1 | Environmental attitudes | Sverker Jagers | 92 |
| Study 2 | Congestion charges | Johan Martinsson | 25 |
| Study 3 | Need for cognition | Jacob Sohlberg | 54 |
| Study 4/VP4 | Election Panel 4 | Johan Martinsson | 117 |
| Study 5 | Does anxiety always improve decision-making? A better specification of the effects of anxiety and priming on policy acceptance | Delia Dumitrescu | 15 |
| Study 6 | Happiness pretest | Fredrik Carlsson, Mitesh Kataria & Elina Lampi | 2 |
| Study 7 | The antiracist norm and news media: unfavorable for anti-immigration parties? | Henrik Friberg-Fernros | 3 |
| Study 8 | Changing positions about nuclear power in Sweden | Michael Tomz & Robert Van Houweling | 6 |
| Study 9 | Sickness absence | Jesper Löve | 4 |
| Study 10 | Comparison: Citizen, Politician, Journalist panels | LORE | 37 |
| Study 11 | Duty to vote | André Blais | 2 |

Table 4: Details of Featured Studies

| Study | <i>Gross subsample size</i> | <i>Net subsample size</i> | <i>NPR by study*</i> | <i>Mean time use (min.)³</i> | <i>Median time use (min.)</i> | <i>St. dev. time use (min.)</i> |
|------------|-----------------------------|---------------------------|----------------------|---|-------------------------------|---------------------------------|
| Study 1 | 5,900 | 5,757 | 68 | 11.3 | 10.6 | 5.0 |
| Study 2 | 2,759 | 2,707 | 70 | 3.7 | 3.3 | 1.8 |
| Study 3 | 2,500 | 2,419 | 69 | 5.7 | 5.2 | 2.5 |
| Study 4 | 6,400 | 6,147 | 62 | 10.2 | 9.3 | 4.2 |
| Study 5 | 1,998 | 1,909 | 56 | 3.3 | 2.6 | 2.4 |
| Study 6 | 400 | 386 | 69 | 0.2 | 0.1 | 0.2 |
| Study 7 | 4,000 | 3,890 | 70 | 1.6 | 1.4 | 1.0 |
| Study 8 | 5,400 | 5,250 | 70 | 1.7 | 1.5 | 0.9 |
| Study 9 | 1,998 | 1,941 | 67 | 1.6 | 1.2 | 1.5 |
| Study 10 | 4,837 | 4,626 | 56 | 3.9 | 3.4 | 2.1 |
| Study 11 | 2,289 | 2,276 | 82 | 0.4 | 0.3 | 0.4 |
| Core vars. | 24,195 | 23,406 | 65 | 3.1 | 2.2 | 3.4 |

Comment: * Please observe that NPR by study is not a good indicator of the quality of each individual study. Several of the studies overlap and the sample composition might intentionally differ, thereby influencing NPR.

³ Time is given in minutes. Time used per study excludes responses with completion times for a single group/page over 10 minutes. The available information is *time used per question group* (group size range from 1 up to more than 10 questions), which is equivalent to what the respondents sees on one web page before clicking “next”.

Table 5: Item Nonresponse Rates by Study

| Study | <i>Mean item missing (%)</i> | <i>Std. Dev.</i> | <i>N</i> |
|------------|----------------------------------|------------------|----------|
| Study 1 | 5.2 | 15.5 | 4,022 |
| Study 2 | 0.7 | 3.5 | 1,903 |
| Study 3 | 1.5 | 6.1 | 1,666 |
| Study 4 | 4.0 | 6.5 | 3,847 |
| Study 5 | 4.2 | 8.2 | 1,062 |
| Study 6 | 0.0 | 0.0 | 268 |
| Study 7 | 0.3 | 3.9 | 2,739 |
| Study 8 | 1.0 | 6.5 | 3,700 |
| Study 9 | 0.3 | 4.0 | 1,231 |
| Study 10 | 2.9 | 3.9 | 2,603 |
| Study 11 | 0.5 | 5.0 | 1,183 |
| Core vars. | 0.2 | 2.2 | 15,246 |

Fieldwork

The Citizen Panel 10 questionnaires were mailed out 7.00 a.m. on Thursday 5th of June 2014 using Qualtrics. A supplementary sample of 1,600 received a questionnaire on the 16th of June. Respondents received two reminders: the first on the seventh field day, 11th of June, and the second reminder on the nineteenth field day, 23rd of June. Supplementary respondents only received the second reminder. No significant issues occurred. Data collection was stopped on Thursday 17th of July 2014.

Figure 1: Number of Responses by Field Day

Figure 2: Cumulative Net Participation Rate by Field Day

Participation rates

Table 6: Net Participation (NPR) Rates by Gender

| <i>Gender</i> | <i>NPR</i> | <i>% of net sample</i> | <i>N</i> |
|---------------------|------------|------------------------|----------|
| Male | 67 | 55.9 | 13,079 |
| Female | 63 | 43.0 | 10,060 |
| Missing information | 3 | 1.1 | 267 |
| Total | 65 | 100 | 23,406 |

Table 7: Net Participation Rates by Age Group

| <i>Agegroup</i> | <i>NPR</i> | <i>% of net sample</i> | <i>N</i> |
|---------------------|------------|------------------------|----------|
| Age 17-29 | 45 | 12.9 | 3,009 |
| Age 30-39 | 57 | 18.5 | 4,328 |
| Age 40-49 | 63 | 20.6 | 4,823 |
| Age 50-59 | 70 | 19.2 | 4,486 |
| Age 60-69 | 76 | 17.7 | 4,135 |
| Age 70+ | 84 | 10.0 | 2,331 |
| Missing information | 2 | 1.3 | 294 |
| Total | 65 | 100 | 23,406 |

Table 8: Net Participation Rates by Education

| <i>Education attained</i> | <i>NPR</i> | <i>% of net sample</i> | <i>N</i> |
|--------------------------------------|------------|------------------------|----------|
| High school or lower | 73 | 10.4 | 2,435 |
| High school: graduated | 68 | 10.6 | 2,471 |
| Studies after high school | 72 | 9.8 | 2,285 |
| University/college: without a degree | 61 | 12.7 | 2,963 |
| University/college: with a degree | 73 | 43.6 | 10,196 |
| PhD | 79 | 3.6 | 835 |
| Missing information | 6 | 9.5 | 2,221 |
| Total | 65 | 100 | 23,406 |

Table 9: Net Participation Rates by Labor Market Situation

| <i>Labor market situation</i> | <i>NPR</i> | <i>% of net sample</i> | <i>N</i> |
|---------------------------------|------------|------------------------|----------|
| Working/gainfully employed | 66 | 62.0 | 14,517 |
| Unemployed/labor market program | 55 | 4.6 | 1,083 |
| Old age/disability pensioner | 80 | 16.2 | 3,784 |
| Student | 46 | 9.6 | 2,254 |
| Other | 70 | 4.8 | 1,124 |
| Missing information | 3 | 2.8 | 644 |
| Total | 65 | 100 | 23,406 |

Table 10: Net Participation Rates by Political Interest

| <i>Political interest</i> | <i>NPR</i> | <i>% of net sample</i> | <i>N</i> |
|---------------------------|------------|------------------------|----------|
| Very interested | 70 | 32.8 | 7,686 |
| Rather interested | 67 | 49.1 | 11,482 |
| Not very interested | 56 | 14.0 | 3,274 |
| Not at all interested | 46 | 1.3 | 305 |
| Missing information | 5 | 2.8 | 659 |
| Total | 65 | 100 | 23,406 |

Glossary

| | |
|---|---|
| <i>AAPOR participation rate (RR5):</i> | AAPOR Standard Definitions 2011 participation rate measure excluding partial responses (partials are defined as response with over 20 and less than 50 percent item nonresponse; calculation: $RR5 = \text{responses} - \text{partials} / GSS$). |
| <i>Background variables</i> | Includes questions related to demographic or basic socio-economic factors such as age, education, household etc. These are regularly updated. |
| <i>Breakoffs</i> | Type of nonresponse. Defined as responses with more than 50 percent item nonresponse, used when calculating AAPOR RR5. |
| <i>Core variables</i> | Core variables are the variables that are not related to a specific study within the survey. Most of these are repeated on a regular basis, often at least twice every year. Background variables are included in this definition, treated as a sub-category. |
| <i>Coverage rate/Absorption rate</i> | The quotient of net and gross sample size (coverage = NSS / GSS). Coverage and absorption rate are synonyms describing this relation. |
| <i>Date of reminders</i> | Reminders are sent by email to those in the sample who have not yet completed the survey. |
| <i>E-mail bounce backs</i> | Due to automatic spam filters and similar services, or incorrect e-mail addresses, certain e-mails may result in a bounce back, i.e. a non-contact. Includes both "hard" and "soft" bounce backs. |
| <i>Field days</i> | The day when the first emailing is made is regarded as the first field day. The last day is the day the survey is discontinued (closed), i.e. the last day that answers are still registered. The length of the field period is the number of days passed between (and including) the first and the last field day. |
| <i>Gross participation rate (GPR)</i> | The quotient of responses and gross sample size ($GPR = \text{responses} / GSS$). Does not exclude partials. Corresponds to AAPOR RR6 and COMR. |
| <i>Gross sample size (GSS)</i> | Gross sample size is the number of potential participants in the initial sample. |
| <i>Gross subsample size</i> | Gross subsample size is the number of potential participants assigned to a specific study in the initial sample. |
| <i>Net participation rate (NPR)</i> | The quotient of responses and net sample size ($NPR = \text{responses} / NSS$). Does not exclude partials. |
| <i>Net sample size (NSS)</i> | Net sample size is the number of potential participants in the initial sample, excluding e-mail bounce backs ($NSS = GSS - \text{bounce backs}$). |
| <i>Net subsample size</i> | Net subsample size is the number of potential participants assigned to a specific study in the initial sample, excluding e-mail bounce backs within that subsample. |
| <i>No. of variables in full dataset</i> | Applies to the most recent version of the dataset including all featured studies. |
| <i>Paradata</i> | Refers to data that does not stem from a respondents answer to a survey question, e.g. data concerning time spent on the survey, the number of reminders, etc. |
| <i>Partial response</i> | Defined as responses with more than 20 and less than 50 percent item nonresponse (less than 80% of the questions answered), used when calculating AAPOR RR5. |
| <i>Response time</i> | The time it takes for a participant to complete a survey. Summary statistics of response times, such as averages, exclude completion times over 90 minutes. |
| <i>Responses</i> | The number of surveys completed by a participant that are registered on the last field day. |
| <i>Study</i> | A study is a featured specific study, e.g. an experiment, or a set of panel questions with a specific purpose, or some other kind of specific and delimited study. |

The Laboratory of Opinion Research (LORE) is an academic web survey center located at the Department of Political Science at the University of Gothenburg. LORE was established in 2010 as part of an initiative to strengthen multidisciplinary research on opinion and democracy. The objective of the Laboratory of Opinion Research is to facilitate for social scientists to conduct web survey experiments, collect panel data, and to contribute to methodological development. For more information, please contact us at:
